Net Game

Directions: Laminate cards and 8 1/2" x 11" page with net.

Cut out the animals and insect cards. The net will stay on the 8 1/2" x 11" page and will not need to be cut out.

Activities: Talk about what kinds of things can be caught with a net. Things like insects, small fish, and other things can be caught in a net.

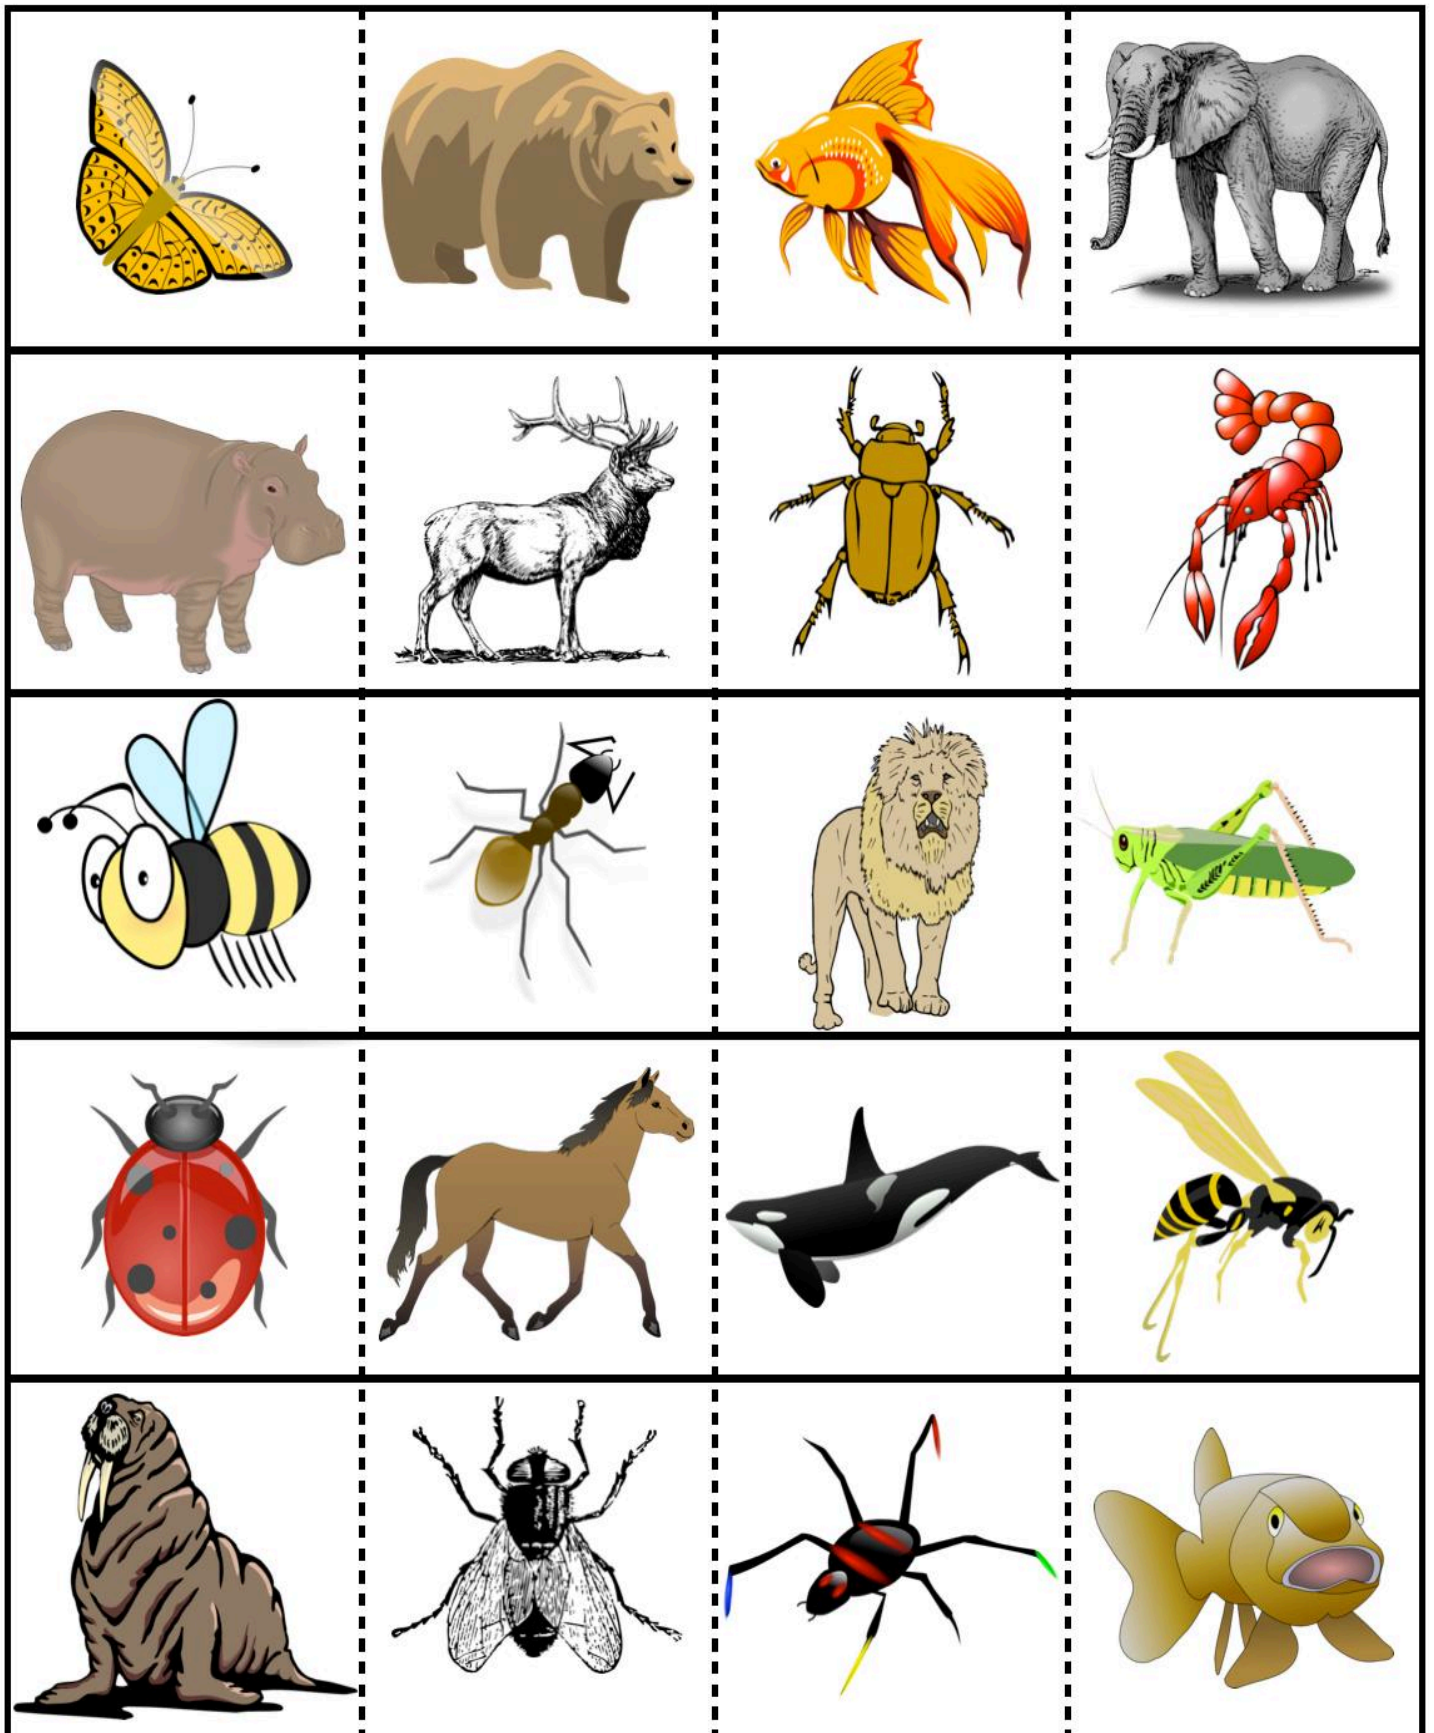

Stack cards and go through the list and ask child if various creatures will fit into the net. When the child guesses correctly, add the creature to the net using blue tack.

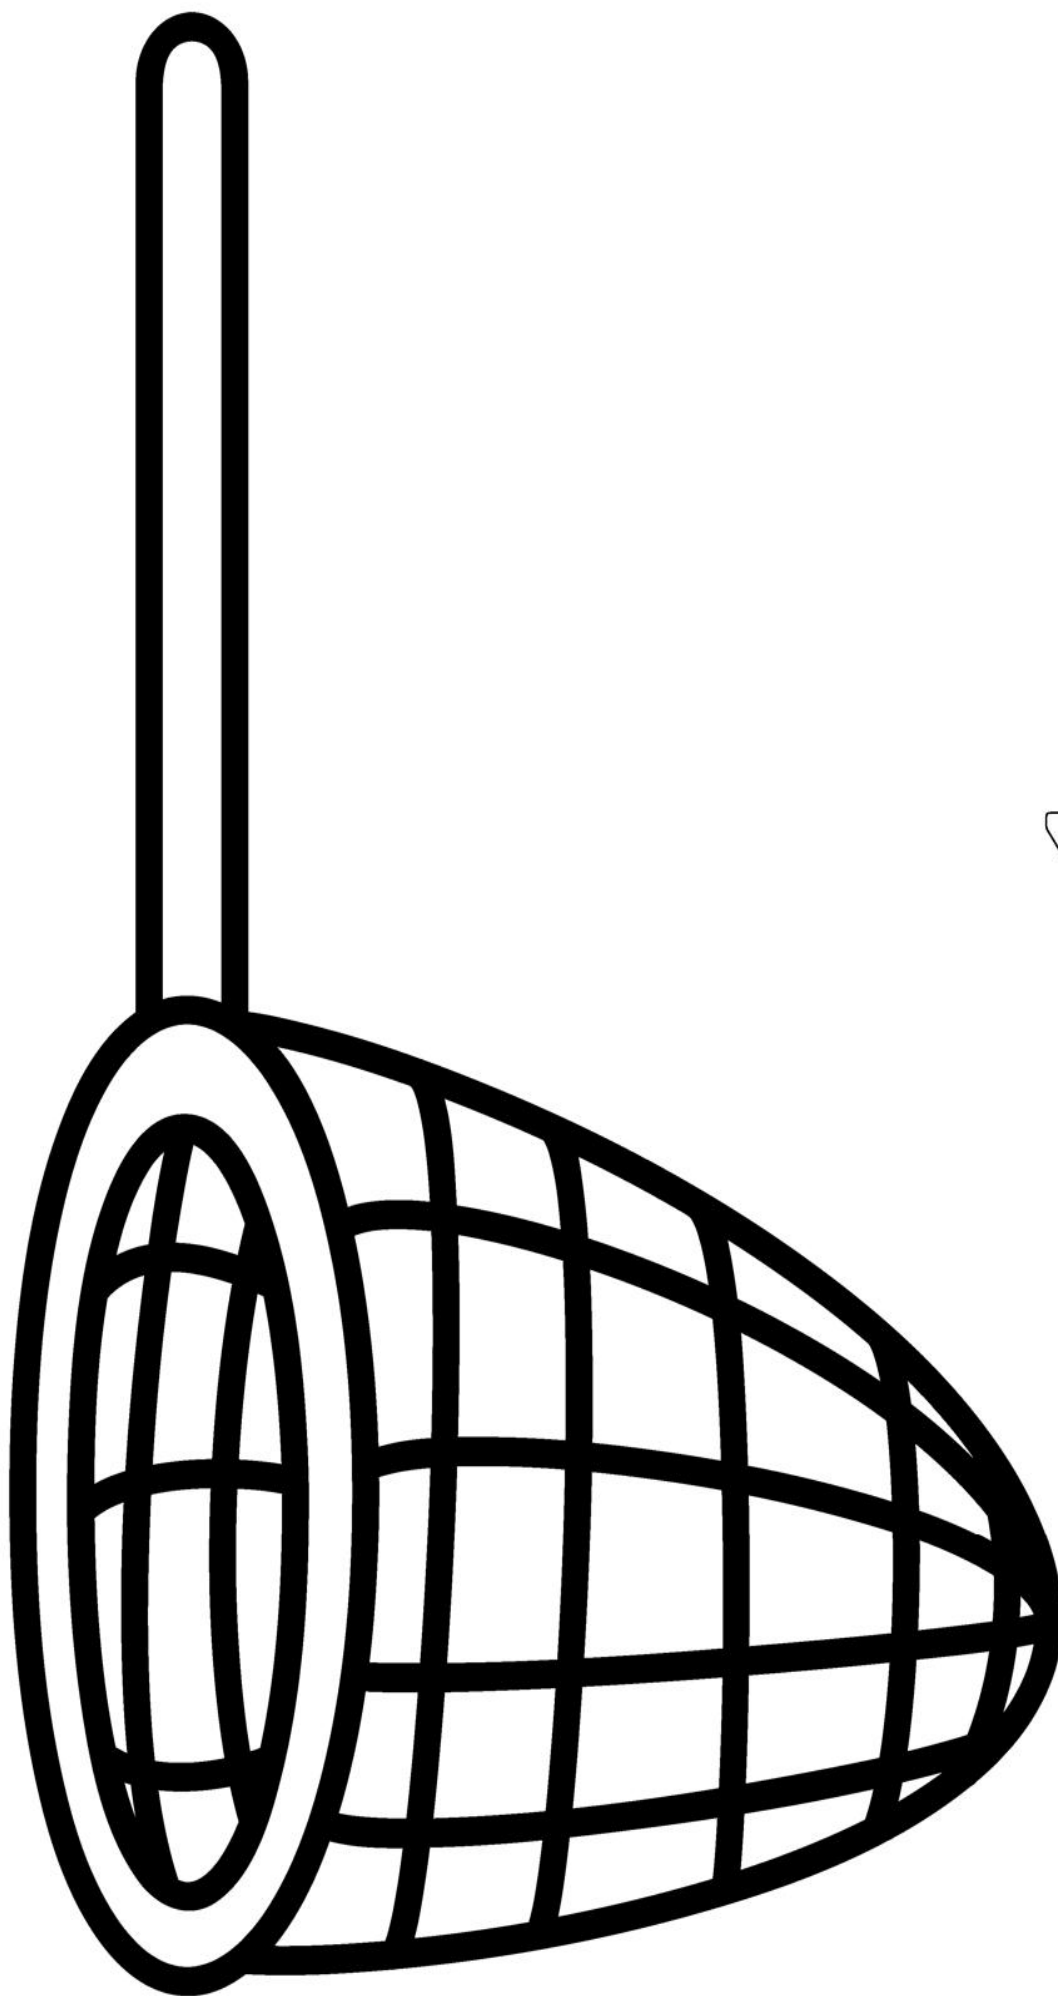

Creatures that would be too large for the net will be placed with blue tack outside the net. There is really no right or wrong answer. The objective is to teach the child to think about size and use their imagination.

When finished, count how many creatures are outside the net and how many are inside the net. You can also use the net for simple subtraction and addition.

Net Game

Print and cut out creatures. Use blue tack to place inside or outside the net on the net card based upon which creatures are small and which are large.

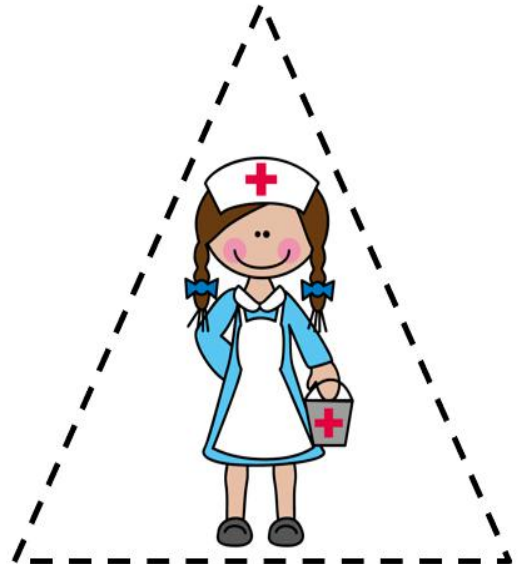

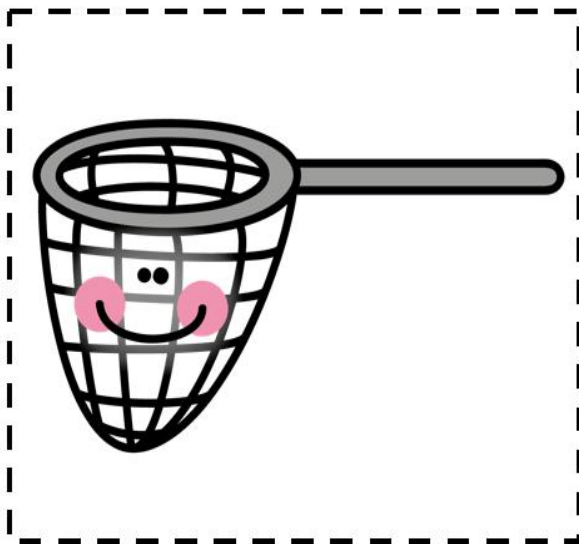

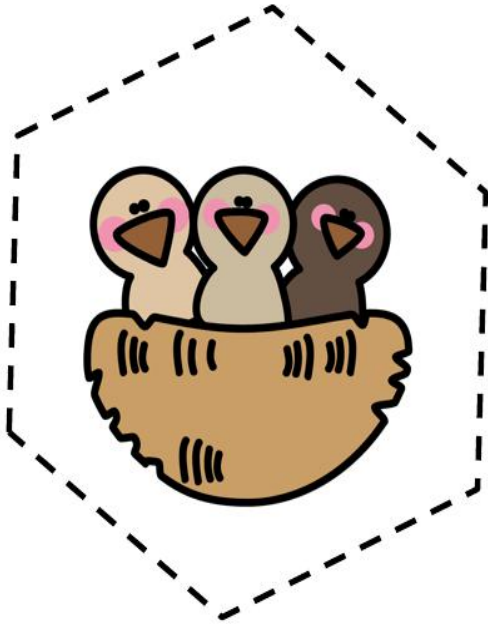

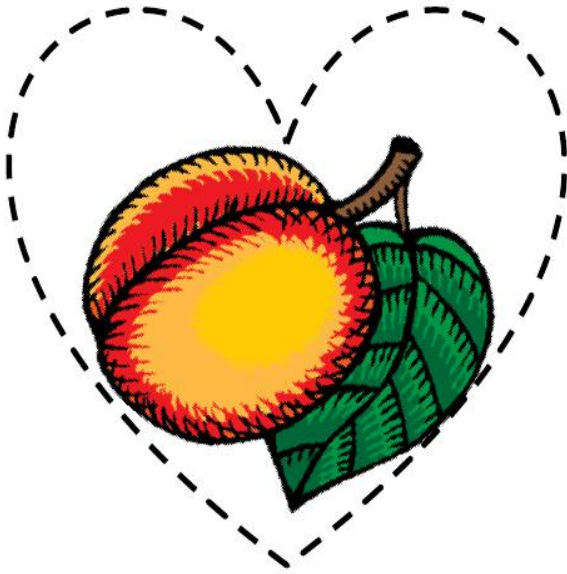

net

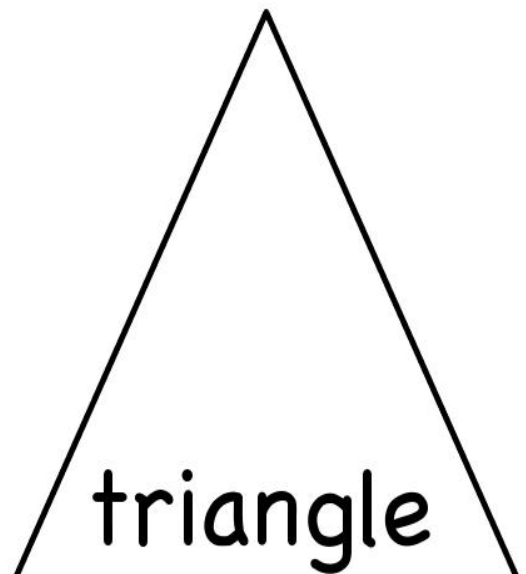

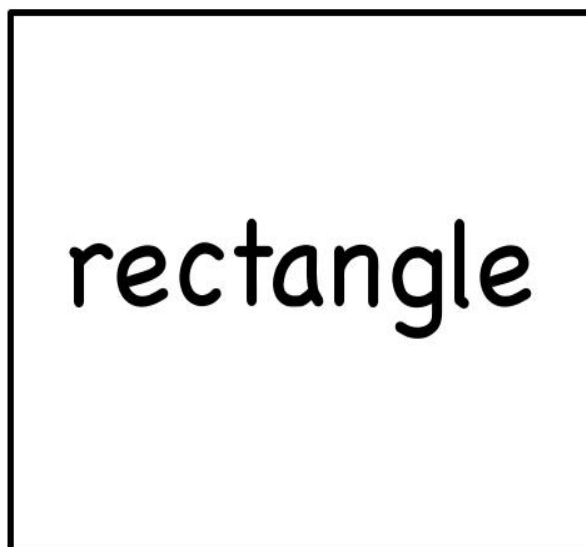

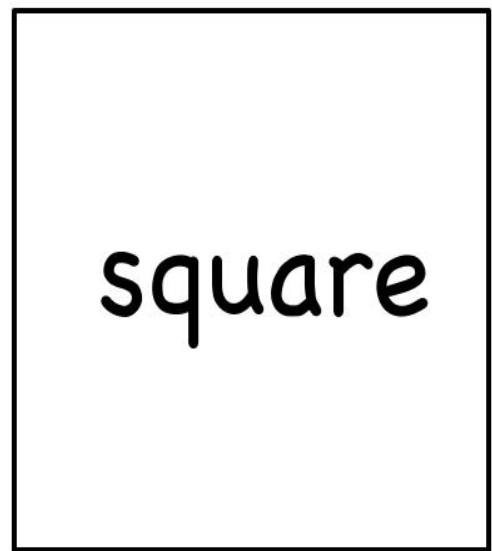

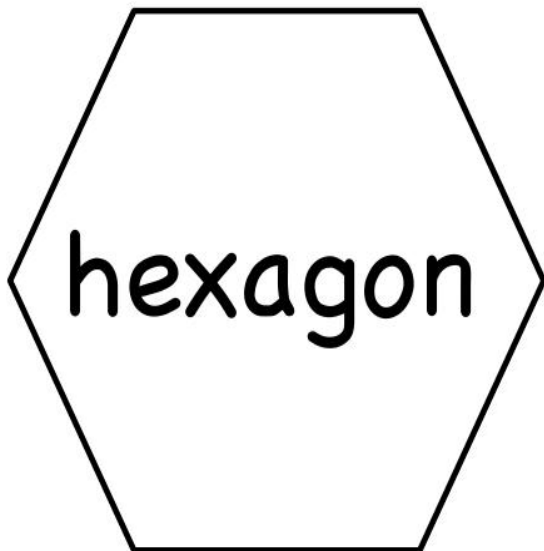

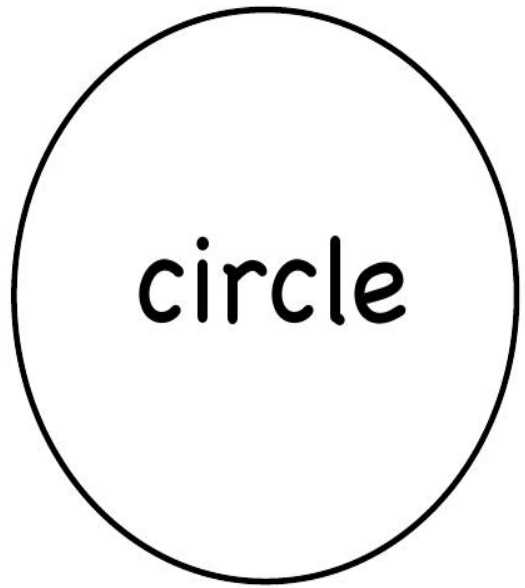

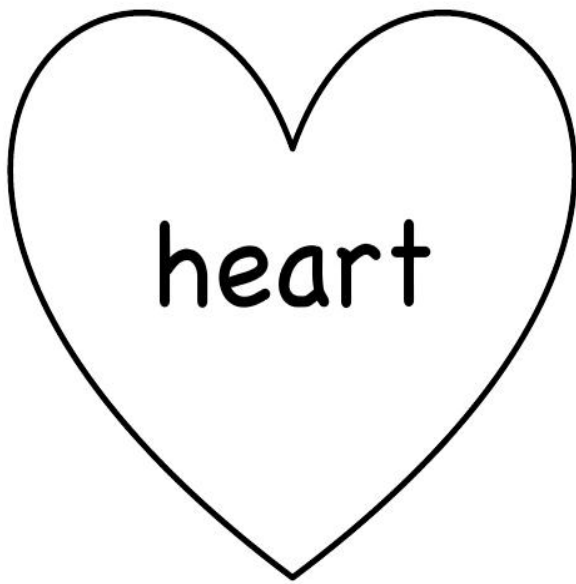

Cutting Practice

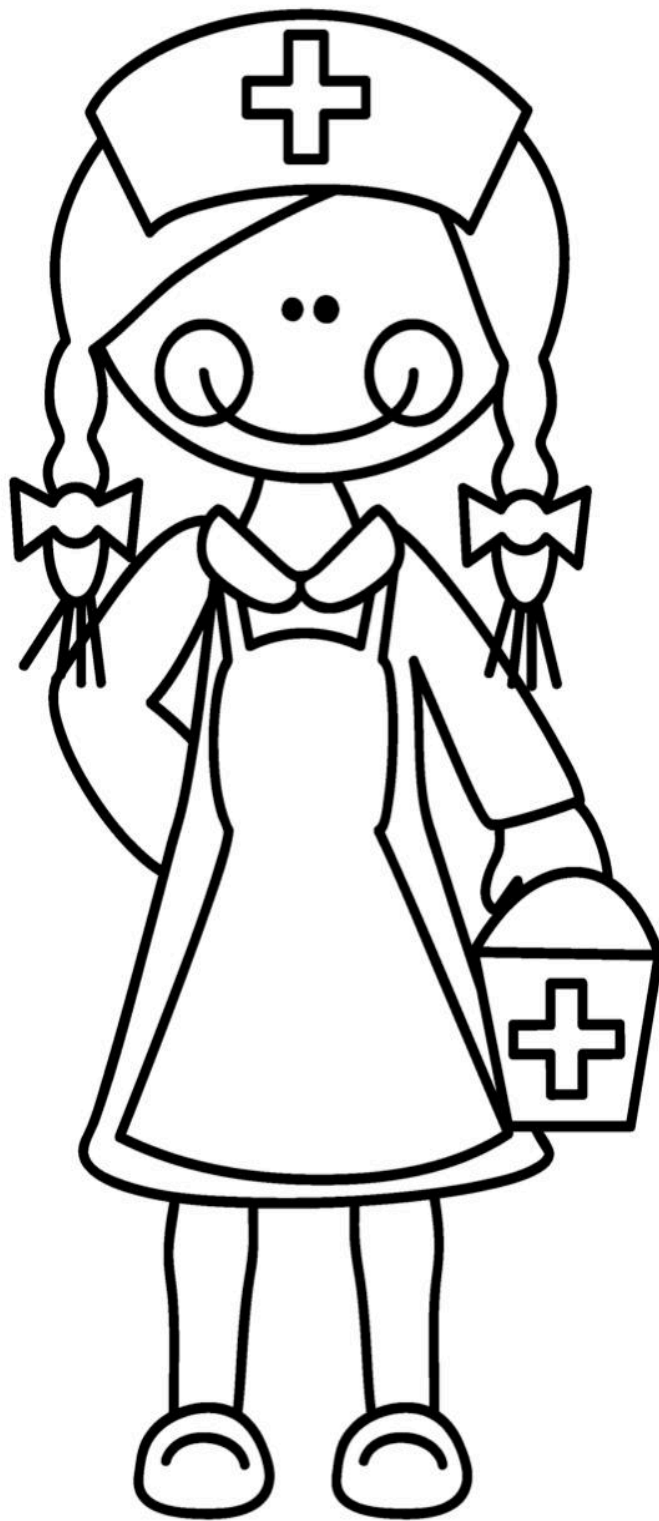

Grown-up: help child cut out along dotted line. Discuss shapes.

Cutting Practice

Point out qualities of various shapes. Cut out and align.
